

Dear Oregonians,

During the recent election there was talk about changes to the health care system. We want to reassure you that CareOregon and our partner health plans are now and will remain strong, stable and focused on our members' health and well-being.

Government-sponsored change does not happen quickly. Any potential changes will involve a great deal of discussion with consumers, health plans and other stakeholders. Throughout that effort, you can be sure that CareOregon will be your advocate and voice.

As both the federal and state governments review budgets for Medicaid and Medicare, we'll be right there doing everything possible to share your views, needs and priorities. For more than 22 years, we've served the largest number of Oregon Health Plan members in the state. That won't change. And you can be sure that CareOregon will advocate not only for members, but for all Oregonians.

“Government-sponsored change does not happen quickly. Throughout that effort, you can be sure that CareOregon will be your advocates and voice.”

Eric C. Hunter
CEO/President, CareOregon

Meanwhile, share your thoughts with government officials about health care coverage. Also, go to careoregon.org/CEO to send us your comments and subscribe to updates about important changes.

You can count on CareOregon. Together, we're healthier as a whole.

Sincerely,

A handwritten signature in black ink that reads "Eric C. Hunter".

Eric C. Hunter
CEO/President,
CareOregon
