Jackson noted that one of the goals of this meeting on the agenda was to “Learn about Implicit Bias”. The agenda was supposed to be corrected to “Hear from Darin Dale, JCC Behavioral Health Manager”.

Word on the Street – All:

CAC Member – Went to the dentist and he felt he got better treatment being on JCC. He went to Best Care Dental Center. He brought information and passed out from the Dental Center. They take OHA, Capitol and ODS.

CAC Member– Still states there are concerns about the direction of the way 101 will go even though it passed.

Belle - Replied that what 101 did was fill the budget whole for a couple years. It looks good for now. Not seeing anything that is going to the legislature for big changes. What the CCO will have next is their 5-year program. What’s been successful? Oral health has not moved forward. If the fear is the numbers being reduce not seeing that now.

Health care is a right to everyone, covers all kids, reproductive health care, things are pretty good for now. Pretty study right now. Next month we are hopeful to get legislative updates from Jeremiah from CO.

The yes on 101 – helped keep things steady.

Discussion held.

CAC Member – Reported a that another JCC Member had an injection last year it was paid for. This year it was no longer paid for by JCC. The member was very upset. Co-Chair said to have the Member call customer service to figure out what is happening.

CAC Member reported that he went to Columbia Care’s new office in Central Point. They were on the video screen – and he really liked it.

Nancy requested CAC Member stories in the form of video or quotes regarding being part of JCC. Several CAC Members agreed to participate.

Meeting adjourned at 5:56pm. Next meeting March 21, 2018 @ 4-6pm.
